# BASIC

★  
HOTEL

★★  
HOTEL

BASIC line depending on the ones used furniture elements can be designed for facilities with a higher or a lower standard. In case of use it in typical facilities hotel rooms, we suggest **EXTENDED VERSION**.

We recommend using a headboard with elements upholstered and integrated sockets electric for easy connection bedside lamps or charger. In this version we also recommend using single wardrobe lockers arranged in different configurations with respect to each other and walls. Availability of various models of wardrobes, both closed and open, with or without a mirror allows you to create many functional sets and the use of even tight ones and constant corridors.

## BASIC

For objects of a lower standard, such as student dormitories or seniors' homes BASIC in the BASIC VERSION. We recommend the use of beds singles with low top from a furniture board, assembled directly to the base of the bed and a side fender securing the wall against dirt. Various types of cabinets and bedside tables allow for individual differentiation of interior depending on the needs of users. Wardrobes can be both traditional: single or double and half open with an easily accessible bar wardrobe and a shelf. Furniture with fronts - wardrobes and bedside tables can be equipped with locks. Complementary items such as lamps or chairs are included in the offer budgetary and are maintained in a style matching the furniture.

# BOM

★★★  
HOTEL

★★★★  
HOTEL

A certain naturalness and simplicity that characterizes this system is the result fully intended.

Starting point for BOM line design it was a classic interior historic version hotels contemporary.

Any ornaments are unnecessary here. Elegance and specificity count.

The whole headboard made of furniture board. Bold on the sides. Ability to change the type and the color of the plate gives you extra arrangement options interiors.

# BOM

The 46mm thick headboard allows you to run cables behind the headrest and arrange sockets and switches in any place and configuration.

The bedside tables and the desk are made of a metal frame

Especially for this system we designed a wardrobe adapted for minibars. We have the option of assembly an opening mini-bar from the front and from the side.

# TIM

Modern and simple furniture stylistics. Integrating many functions within one building development introduces in the interior of order. Thanks to this treatment dimensions of individual solids they balance with each other and none of the furniture it does not dominate the interior.

## TIM

Safe, minibar, welcome kit, TV and desk lighting. One can accommodate this much equipment building. The furniture is multifunctional, but not overwhelming. Carefully well-thought-out design and recommended colors give the whole lightness, not taking away functionality.

A bed with a high decorative upholstered headboard it is the perfect complement for other furniture. Warms you up visually the interior and provides comfortable users rest.

Connected wardrobe with an extension with hanger panel and mirror it will transform even a small corridor into a functional space enabling hotel guests storing a large amount of clothes. We recommend this type of solution for objects that prefer longer ones stays of their clients.

# ETNA

Careful analysis of needs made for a business class hotel allowed us to create modern furniture that combine practical solutions with a fashionable austere elegance.

Solids and functions of the furniture bond together, creating a brand new facility, which perfectly fits into cramped spaces. This interpenetration effect is also used to choose colors and textures.

We have obtained more space in the room by concentration of elementary hotel furniture functions in a single piece of furniture (wardrobe + desk with a minibar cupboard + mirror + coat hanger)

There is a possibility to use a moisture- and stain-resistant work top made of Corian® under the welcome tray set with an electric kettle.

## ETNA

Headboards thickness of 54mm allows to route the cables behind it thus the electric sockets and switches can be arranged anywhere on the headboard.

The division of a larger closet into two parts gives the guests in a double room a greater range of privacy and hygiene. Moreover the direction of hangers minimizes the depth of wardrobes and increases the width of the corridor.

In this design we used handy folding coat hangers.

Thin, hairpin type, metal legs are not only durable and stable, but make the furniture solid look light and modern.

Upholstered element made of artificial leather with a texture similar to a fabric. This material is highly durable, fire- and waterproof, easy to clean and maintain, it has a special protection against the development of fungi and microorganisms.

# BOLD

★★★  
HOTEL

★★★★  
HOTEL

BOLD collection means elegance and modern classic, highlighted by framed furniture doors, wooden legs and crown moldings. The large, entirely quilted headboard complements the view perfectly.

High headboard covering the whole width of the bed is fully upholstered with an interesting quilting.

The first model of night table has a door and wooden, profiled legs

## BOLD

Wardrobes with framed doors and a crown molding made of wood have an additional construction reinforcement and special adjusting legs. Thanks to this they are extremely stabile and firm.

4 hinges for each door.

Doors have a silent closing system.

An unusual division of furniture fronts gives an opportunity to instal a minibar.

The desk, night table and coffee table have taper legs made of wood.

We can make different kinds of quilting on the upholstered headboard.

Second model of night table has high and straight wooden legs, it can be made with a drawer or without it.

# SLIM

★  
HOTEL

★★  
HOTEL

★★★  
HOTEL

Modern furniture with simple lines in a very good price range is a great solution for customers who follow current design trends.

The furniture is used in both small quest houses and large hotel facilities due to its versatility and adaptability even to small or difficult room plans.

Headboards thickness of 46mm allows to route the cables behind it thus the electric sockets and switches can be arranged anywhere on the headboard.

## SLIM

The wardrobes are partially opened. They have an additional construction reinforcement and special adjusting legs. Thanks to this they are very stable and firm.

4 hinges for each door.

The cabinets and drawers can be opened handle-less.

Doors have a silent closing system.

The front edges of the top and side boards are 5cm thick.

Innovative way of connecting the furniture elements make the furniture board look like a veneer.

We can place a panel for the electricity on the desk.

We can add an upholstered element to the headboard. The client chooses the type of fabric and quilting.

The upholstered element can be made in one or two pieces.

# MAXX

★★★  
HOTEL

★★★★  
HOTEL

In this furniture system we mixed together several styles and used a lot of different high quality materials (black, high gloss board and contrasting wooden decor). The whole view is complemented by additional elements like stylish pouf, lamps and textiles. There is something which unites them in an impressive way. Especially in this project we used our knowledge and passion for creating furniture.

Headboards thickness of 46mm allows to route the cables behind it thus the electric sockets and switches can be arranged anywhere on the headboard.

The headboard has a large upholstery made of interesting and easy to maintain fabric.

## MAXX

The wardrobes are partially opened. Chrome bars situated at the bottom act as a suitcase stand. Wardrobes have an additional construction reinforcement and special adjusting legs. Thanks to this they are very stabile and firm. 4 hinges for each door. Doors have a silent closing system.

We can make different kinds of quilting on the upholstered part of the headboard.

Night tables and coffee table have legs made of wood.

The front edges of the top and side boards are 5cm thick.

Innovative way of connecting the furniture elements make the furniture board look like a veneer.

# LABUCHE

★★★★  
HOTEL

★★★★  
HOTEL

Fashionable white color which is a main feature of the LABUCHE system creates a nice contrast with natural materials used in arranged room. Monochrome elements with white lamps and TV complement brilliantly the interior with wood, concrete or brick finishings. The unconventional location of the furniture forces an alternative logistics in a hotel room, which introduces a breath of fresh air in the arrangement.

Upholstered headboard does not have to be assembled on the wall. Thanks to this we can situate the bed in a non-standard location, i.e. in the middle of the room.

## LABUCHE

Wooden stool is not only an additional seat in the room, but also serves as an excellent night table.

The doors for the cupboards have silent closing system.

The front edges of the top and side boards are 5cm thick.

Innovative way of connecting the furniture elements.

In wardrobes we used a sliding translucent veil instead of a regular door. The wardrobes have an additional construction reinforcement and special adjusting legs. Thanks to this they are very stabile and firm.

# DECO

★★★★  
HOTEL

★★★★★  
HOTEL

Furniture equipment for a demanding customer being the quintessence of elegance and exquisite taste. The slightly stylized character of the interior has been completed with the trendiest colors of additions, thanks to which the final effect hits the tastes of a wide range of recipients.

A comfortable sofa is an extension of the bed. Thanks to this setting and expressive color, it becomes the focal point of the room and an interesting "eyecatcher".

## DECO

The modern wardrobe with the side made of glass thanks to its construction not has to be placed by the wall. Cupboards with the double-sided access allow for any placing this piece of furniture in the room.

Using modern furniture with high functional parameters didn't change the designed charm of "old Hollywood". Golden supplements and the original lighting cause that staying in hotel with such furnishings becomes a true pleasure.

A crystal mirror with a classic division and a stylish chair are beautiful details that give the interior a sophisticated character.

# INDIVIDUAL PROJECTS

When our basic systems  
will not meet  
Your expectations,  
we are able to develop  
individual project.  
We can do it ourselves  
or in cooperation  
with the designated designer.

We make sure that through  
3D visualization  
and samples presentation,  
the idea for the interior  
is shown as real as possible.

## UNUSUAL

To meet your expectations and get the most interesting effect, we use unconventional decors of furniture boards and selected fabrics with high technical parameters.

We are able to provide furniture for reception, to dining room, restaurant and lobby. Thanks to such complex offer we create cohesive interiors.

Our goal is not only remarkable stylistics, but above all providing a long lasting and trouble-free use of supplied furniture and accessories.

## UNTYPICAL

Our goal is not only remarkable stylistics, but above all assurance long and of banal use of delivered furniture and additions.

We also equip dormitories and apartments

## UNUSUAL

Individual furniture is created according to your expectations. Elements are made in accordance with current trends and meet the requirements of functionality and ergonomics of the rooms

During cooperation with us, you receive a comprehensive service. Starting from the design through production, and assembly, ending on warranty and post-warranty service

# KITCHENETTES

Our offer is addressed also to the owners of apartments and hotel rooms equipped with a kitchen.

Our kitchenettes are matched both in style and color to the rest of the furniture we provide. Consequently, the entire space of the room is coherent and functionally complete.

We design and manufacture our kitchenettes to fit perfectly into the rest of the interior. They are always adapted to the specific dimensions in a room, therefore they are practical and fully utilize the available space.

## BARS AND RECEPTION DESKS

Apart from the room furniture we also make furniture of a different kind.

We are able to deliver to you reception desks, bar counters and buffets for the dining room. Each piece of furniture of this type is made on individual order and is customized to individual needs a given investor both in terms of colors, material, functional and design.
